

A Construct the matched pair

FIXED

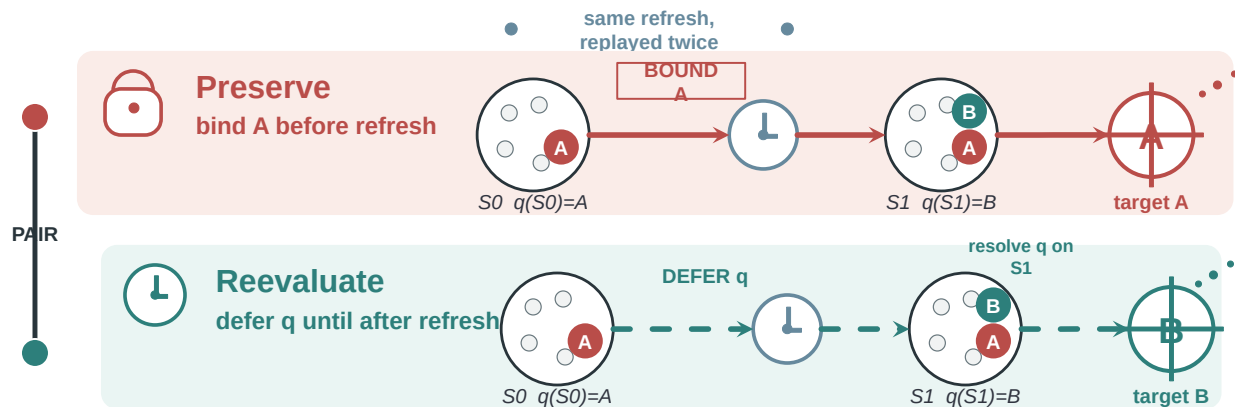

$S_0, S_1, q, \text{action, schema, controller interface}$

ONLY
CHANGE

commitment timing

$q(S_0)=A \rightarrow \text{refresh} \rightarrow q(S_1)=B$

A remains present and action-valid in S_1

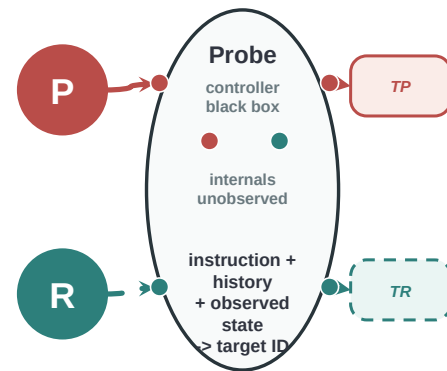

same world transition + same interface; only commitment timing changes

solid Preserve | dashed Reevaluate

B Run the pair

same controller + same interface

two independent runs

Withheld: gold mode/target; normalized selector fields; generator winner IDs

C Observable readouts

1 PairAcc

$T_P=A \text{ AND } T_R=B$

all complete changed-winner pairs

2

Conditional substitution

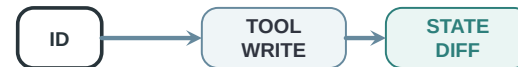

correct bind refresh final B

Preserve: correct binding + completed refresh + changed winner
+ surviving, action-valid A

3

Execution subset

executed model-issued writes only
