

SHARED STATE TRANSITION

REPRESENTED REFERENTIAL STATE

BOUND BEFORE REFRESH
“it” retains the committed entity

correct
Email A

DEFERRED UNTIL AFTER REFRESH
resolve the selector only after the update

correct
Email B

Same transition; only commitment timing differs

TIMING	INSTRUCTION	CORRECT TARGET	FAILURE EXPOSED
PRESERVE	Choose the highest-priority unread email now. Refresh, then reply to it.	Email A	A → B over-reevaluate
REEVALUATE	Refresh the mailbox first. Then choose the highest-priority unread email and reply.	Email B	B → A over-lock
